Summary

Product designer with 10+ years of experience designing web and mobile products. Strong in user flows, interaction design, prototyping, and cross-functional collaboration with product, engineering, and stakeholders. Experienced in translating ambiguous product goals into clear, implementation-ready solutions shaped by user feedback, business context, and technical constraints.

Core Skills

- Product design
- Product thinking and feature design
- User flows and information architecture
- Interaction design and prototyping
- User research and feedback synthesis
- Cross-functional collaboration
- Design systems
- Implementation-ready design and developer handoff

Professional Experience

Jun 2024 – present

Product Designer (contract)

DASHKU PTE LTD, Singapore / Remote

- Conducted user interviews and synthesized survey and feedback data to inform product decisions.
- Designed AI-assisted workflows that turn a single product photo into marketplace-ready ad and listing assets.
- Adapted product flows, content inputs, and output requirements for Southeast Asian marketplace use cases.

Jan 2023 – Apr 2025

Product Designer (contract)

Telleqt, Singapore / Remote

- Redesigned key flows and information architecture for a complex NFT analytics platform.
- Reduced the entry barrier for users through clearer navigation, hierarchy, and content structure.
- Helped translate a technically dense product into a more approachable and usable experience.

Jan 2022 – Dec 2024

Product Designer (contract)

iHairium, Remote

- Designed iOS and web experiences for an AI-powered hair and scalp diagnostics product.
- Worked within a strong product team alongside two product managers, a CPO, and an analyst, contributing to discovery, flow design, and interface decisions.
- Helped shape the product based on customer research and analytics, including a major pivot driven by user insights and performance metrics.
- Collaborated in a research-driven environment to make complex diagnostic journeys clearer and easier to navigate for end users.

Nov 2017 – Feb 2026

Senior UX/UI Designer (contract)

Bogunov Inc., Japan / Remote

- Long-term contract designer for a Japanese partner, working across multiple client products and releases.
- Designed web and mobile experiences from user flows and interface structure to high-fidelity UI and handoff.
- Collaborated with developers, project managers, and stakeholders to turn detailed business requirements into clear, usable experiences.
- Worked in cross-cultural remote teams with high expectations for quality, detail, and delivery.

Dec 2012 – Nov 2017

Independent UX/UI Designer

Self-employed, Remote

Sep 2011 – Dec 2012

Leading Web Designer

Infocom Holding, Krasnoyarsk, Russia

- Designed websites and digital interfaces for client projects.
- Worked closely with developers and project managers from concept to handoff.
- Helped translate business requirements into clear and usable interface solutions.

2005 – 2012

Graphic Designer (earlier experience)

Self-employed and agency roles, Krasnoyarsk, Russia

- Worked on branding, print materials, websites, and client design projects, building the foundation for later transition into digital product and UX/UI design.

Education

2019 – 2020

Apple Developer Academy Diploma

Apple Developer Academy, Naples, Italy

- Studied software development for Apple platforms using the Challenge-Based Learning framework.
- Covered Swift development, UX/UI design, teamwork, product thinking, and project work.

2002 – 2007

Graduate Degree in Engineering

Siberian Federal University, Krasnoyarsk, Russia

- Studied programming, CAD systems, UI development, engineering, and mechanics.
- Graduated with distinction.
